4.04.10

We have been coming to Busselton for over 30 years and I can honestly say we have never experienced the high standard of cleanliness and attention to detail that we have been afforded at Peppermint Park Eco Village.

It's the Easter weekend and packed to the rafters, however, the ablution blocks do not reflect this at all - far from it; they are cleaned and replenished twice daily by friendly and helpful staff. All sites are shaded by lovely Peppermint Trees and there is plenty of space in each bay. With 2 swimming pools, HUGE campers kitchen with everything you could wish for, including flat screen TV and daily activities aimed at the younger family members, its a Holiday Park to wish for.

Last night we had rain and to my amazement, even the road had been well thought out with the camber sloping down at each side, navigating the water into a middle channel and straight into a waiting drain! Now that's what I call attention to detail.

We will definitely be calling the Peppermint Park Eco Village home from now on.

Thanks for making our stay a happy and memorable one.
